### **Execution Version**

### **Grant Confirmation**

- This Grant Confirmation is made and entered into by the Global Fund to Fight AIDS, Tuberculosis and Malaria (the "Global Fund") and William J. Clinton Foundation (the "Principal Recipient" or the "Grantee"), as of the date of the last signature below and effective as of the start date of the Implementation Period (as defined below), pursuant to the Framework Agreement, dated as of 1 December 2017, as amended and supplemented from time to time (the "Framework Agreement"), between the Global Fund and the Grantee, to implement the Program set forth herein.
- 2. <u>Single Agreement</u>. This Grant Confirmation, together with the Integrated Grant Description attached hereto as Schedule I, sets forth the provisions (including, without limitation, policies, representations, covenants, Program Activities, Program budget, performance framework, and related implementation arrangements) applicable to the Program, and forms part of the Grant Agreement. Each capitalized term used but not defined in this Grant Confirmation shall have the meaning ascribed to such term in the Framework Agreement (including the Global Fund Grant Regulations (2014), available at http://www.theglobalfund.org/GrantRegulations). In the event of any inconsistency between this Grant Confirmation and the Framework Agreement (including the Global Fund Grant Regulations (2014)), the provisions of this Grant Confirmation shall govern unless expressly provided for otherwise in the Framework Agreement.
- 3. Grant Information. The Global Fund and the Grantee hereby confirm the following:

3.1	Host Country or Region:	Republic of India
3.2	Disease Component:	Tuberculosis
3.3	Program Title:	Joint Effort for Elimination of TB (JEET 2.0), India
3.4	Grant Name:	IND-T-WJCF
3.5	GA Number:	2041
3.6	Grant Funds:	Up to the amount of USD 22,452,552 or its equivalent in other currencies
3.7	Implementation Period:	From 1 April 2021 to 31 March 2024 (inclusive)
3.8	Principal Recipient:	William J. Clinton Foundation 40, Okhla Industrial Estate, Phase 3 110020 New Delhi Republic of India Attention: Mr. Harkesh Singh Dabas Managing Director
		Email: hdabas@clintonhealthaccess.org

3.9	Fiscal Year:	1 April to 31 March
3.10	Local Friend Assert	Price Waterhouse Chartered Accountants LLP (PWCALLP) Building 8, 8th Floor, Tower-B, DLF Cyber City 122002 Gurgaon, Haryana Republic of India
3.10	Local Fund Agent:	Attention: Heman Sabharwal Team Leader
		Telephone: +91 1244620148 Facsimile: +91-124-462-0620 Email: heman.sabharwal@in.pwc.com
3.11	Global Fund contact:	The Global Fund to Fight AIDS, Tuberculosis and Malaria Global Health Campus, Chemin du Pommier 40 1218 Grand-Saconnex, Geneva, Switzerland Attention: Urban Weber Department Head Grant Management Division
		Telephone: +41 587911700 Facsimile: +41 445806820 Email: urban.weber@theglobalfund.org

- 4. <u>Policies</u>. The Grantee shall take all appropriate and necessary actions to comply with (1) the Global Fund Guidelines for Grant Budgeting (2019, as amended from time to time), (2) the Health Products Guide (2018, as amended from time to time), and (3) any other policies, procedures, regulations and guidelines, which the Global Fund may communicate in writing to the Grantee, from time to time.
- 5. Covenants. The Global Fund and the Grantee further agree that:

### 5.1 Personal Data

(1) Principles. The Principal Recipient acknowledges that Program Activities are expected to respect the following principles and rights ("Data Protection Principles"): (a) Information that could be used to identify a natural person ("Personal Data") will be: (i) processed lawfully, fairly and transparently; (ii) collected for specified, explicit and legitimate purposes and not further processed in a manner not compatible with those purposes; (iii) adequate, relevant and limited to what is necessary for the purposes for which they are processed; (iv) accurate and, where necessary, kept up to date; (v) kept in a form which permits identification of the individuals for no longer than is necessary for the purposes for which the Personal Data is processed; and (vi) processed in a manner that ensures appropriate security of the Personal Data; and (b) Natural persons are afforded, where relevant, the right to information about Personal Data that is processed; the right to access and rectify or erase Personal Data; the right to data portability; the right to confidentiality of electronic communications; and the right to object to processing.

(2) Limitations. Where collection and processing of Personal Data is required in order to

implement Program Activities, whether by the Principal Recipient, a Sub-recipient, or Supplier, the Principal Recipient should respect the Data Protection Principles: (a) to the extent that doing so does not violate or conflict with applicable law and/or policy; and (b) subject to the Principal Recipient balancing the Data Protection Principles with other fundamental rights in accordance with the principle of proportionality, taking into account the risks to the rights and freedoms of natural persons.

5.2 With respect to Section 7.6 (Right of Access) of the Global Fund Grant Regulations (2014), (1) the Global Fund may collect or seek to collect data, and it is possible that such data may contain Personal Data, and (2), prior to collection and at all times thereafter, the Principal Recipient shall take all necessary actions to ensure that the transfer of such information to the Global Fund does not violate any applicable law or regulation.

5.3 The Program budget may be funded in part by Grant Funds disbursed under a previous Grant Agreement, which the Global Fund has approved to be used for the Program under the current Grant Agreement ("Previously Disbursed Grant Funds"), as well as additional Grant Funds up to the amount set forth in Section 3.6. hereof. Accordingly, the Global Fund may reduce the amount of Grant Funds set forth in Section 3.6. hereof by the amount of any Previously Disbursed Grant Funds. Previously Disbursed Grant Funds shall be governed by the terms of this Grant Agreement.

[Signature Page Follows.]

IN WITNESS WHEREOF, the Global Fund and the Grantee have caused this Grant Confirmation to be executed and delivered by their respective duly authorized representatives on their respective date of signature below.

The Global Fund to Fight AIDS, William, J. Clinton Foundation

### Schedule I Integrated Grant Description

### A. PROGRAM DESCRIPTION

### 1. Background and Rationale for the Program

The Republic of India continues to bear the world's highest burden of tuberculosis (TB) in terms of absolute numbers of incident TB cases. Further, an estimated 350 million people in India are latently infected with TB and 4 million new TB infections occur every year<sup>1</sup>.

Efforts of National TB Elimination Programme (NTEP) through interventions such as JEET have resulted in an increase of 38% in notifications from 2017 to 2019². In order to achieve its 2025 TB elimination target, the country needs to dramatically increase detection and treatment of Latent TB Infection (LTBI). India's National Strategic Plan 2017–2025 (NSP) has set an ambitious target of 95% LTBI identified/eligible cases to be initiated on TB Preventive Treatment (TPT).

However, in 2018 less than 25% children below 6 years<sup>3</sup> and 17% of newly enrolled PLHIV<sup>Errort Bookmark not</sup> defined. had access to TPT. Low TPT coverage is mainly driven by inadequate household contact tracing (<40%) and inconsistent TB screening practices in ART clinics. Finally, as NTEP scales-up Patient Provider Support Agency (PPSAs) in over 100 districts through domestic funding, it is important that existing JEET (PPSAs) are seamlessly transitioned to the domestic funded agencies. A planned transition will ensure patients in these districts continue to get access to quality drugs and diagnostics in the post COVID-19 lockdown state. The COVID-19 pandemic has had a catastrophic effect on the TB control services both in the public and private sector. While the domestic PPSAs transition has been planned, the stringent implementation of COVID-19 containment measures has had a lasting administrative and programmatic effect. To recover the gains made under JEET, the transition will ensure getting services back, its transition to domestic support and to minimize the impact of the COVID-19 pandemic on tuberculosis.

### 2. Goals

The project will accelerate NTEP's progress towards TB elimination by improving quality of care and increasing patients' access to drugs and diagnostics through technology driven interventions and partnerships with the private sector. Specifically, the project will address gaps in LTBI care cascade, measure and improve quality of care across the cascade and build NTEP capacity with the following objectives:

- a. To address the LTBI burden by establishing mechanisms for household contact tracing of adults and children in contact with Pulmonary TB (PTB) patients and ensuring access to quality care; and
- b. To sustain and strengthen the gains under the JEET project and provide strategic and operational support to States in transitioning to domestically funded PPSAs (by December 2021).

### 3. Strategies and Activities

As part of the NSP mantra to "go where the patient goes", the project will target household contacts of PTB index cases, pediatric contacts and private sector patients. The project will engage private laboratories, pharmacies, logistics providers as well as support NTEP staff at the district, state, and national level to provide patients access to quality services.

The project aims to **improve access to quality services for public as well as private sector TB patients**. This will be achieved by leveraging and, more importantly, extending the project's existing relationships with the private sector. New partnerships will be forged in specialized domains of drugs and diagnostics supply chain, patient care and last-mile delivery of services.

<sup>3</sup> India TB Report 2019.

<sup>&</sup>lt;sup>1</sup> Houben RMGJ, Dodd PJ. The global burden of latent tuberculosis infection: a re-estimation using mathematical modelling. PLoS Medicine. 2016;13(10):e1002152.

<sup>&</sup>lt;sup>2</sup> Nikshay Reports accessed on 16<sup>th</sup> February 2020 (https://reports.nikshay.in/).

### Objective 1: Address LTBI burden in India

To address the gaps across the LTBI care cascade, the project proposes the following interventions:

Holistic contact tracing: Provision of intensive household contact tracing; offering contacts screening and testing for disease and infection, linkage to treatment and adherence support. The project will offer comprehensive counselling to families, contacts of confirmed PTB patients and ensure regular follow-up.

Linkages to diagnostics and drugs: Symptomatic contacts will be screened for TB using Chest X-Ray and those with lesions will be linked to confirmatory tests including CBNAAT/Truenat. The project will partner with private facilities to provide access to 'near-home' free diagnostic screening: Innovative solutions such as athome screening tests, Al-based test interpretation will be explored to standardize quality of testing and reporting. In a proportion of district test and treat modality will be piloted using different approach. After year 1, the drugs and diagnostics will be facilitated from the programme until the end of the project. Similarly, linkages for timely and convenient TPT drug refills will be developed to improve adherence. There will also be piloting of implementation models for newer regimen other than 3HP.

**Mechanisms to link High Risk Groups**: The project proposes to use the data from contact tracing to develop predictive hotspot maps of high-risk and vulnerable groups, and use these to plan targeted interventions in urban and rural settings. This will guide planning resources for LTBI treatment in high- and low-TB incidence settings as well as Active Case Finding interventions.

Leverage Community Platforms: To ensure sustainability of long-term follow-up of index cases, report relapse and support to the affected household, community-based service delivery platforms such as Health and Wellness centres, Village Health Sanitation and Nutrition Days (VHSND) and support systems such as TB Forums will be leveraged.

### Objective 2: Sustain and strengthen the gains under JEET project

The existing JEET PPSA will be transitioned within the first nine months of implementation. A planned transition will ensure patients in these districts continue to get access to quality drugs and diagnostics in the post COVID-19 lockdown state. While the domestic PPSAs transition has been planned, the stringent implementation of COVID-19 containment measures has had a lasting administrative and programmatic effect. To recover the gains made under JEET, the transition will ensure getting services back, its transition to domestic support and to minimize the impact of COVID-19 pandemic on tuberculosis.

The following interventions are proposed:

- Support PPSA transition to domestic funded agencies: State Transition Plans (STP) are proposed
  to be developed in consultation with NTEP. STP will include optimization of resources based on learnings
  till date, SR capacity building to manage end-to-end PPSA operations, development of SOPs and
  technical support at the state level for budgeting, contracting and capacity development to manage
  PPSAs under domestic funding. Handholding support will also be provided to Technical Support Units
  proposed under the domestic budget.
- Continue efforts to improve access and quality of service delivery: The project will continue to strengthen FDC drug logistics systems and improve drug access to private sector patients. Innovative solutions such as partnerships with e-pharmacies for home-delivery of drugs and e-vouchers to stock drugs at chemists will be explored.

### 3. Target Group/Beneficiaries

For Latent Tuberculosis: household contact of pulmonary TB patients in target geographies.

For the private sector engagement intervention: TB patients seeking health care services in the private health sector. The Principal Recipient will facilitate TB notifications from private health sector, provide public health action support to patients and private providers through PPSAs, and support the transition of PPSAs to domestic funding during the first year of the grant.

The grant will cover 64 NTEP districts across 11 states and Union Territories of India. These are Uttar Pradesh, Uttarakhand, Jammu and Kashmir, Haryana, Rajasthan, Gujarat, Bihar, Tamil Nadu, Delhi, Kerala and Ladakh.
